I just spoke with David. He said he's the one to talk to about outreach (but his concern is getting companies to sign up for construct alert emails). He said LADOT is meeting with the contractors this week to discuss phasing and timelines. So he doesn't have details and isn't sure if DOT will have them yet.

He's at (213) 978-3307 or david.somers@lacity.org

Is there anyone we can reach out to right now regarding stakeholder outreach?

Thanks.

This is the Figueroa Streetscape project. Runs from MLK up to 7th St. Adds separated bikeways and other "pedestrian and mobility enhancements."

LADOT came to DT2030 committee last week to discuss it. They still didn't have a construction timetable as of last week (they said they had awarded the contract but hadn't met with the new contractor on timelines yet). No further word from them since then. The start date (and other dates) have been pretty fluid - this was originally supposed to start months ago.

I was in a meeting with the City Planning lead on this 4-5 months ago. They said they were going to conduct lots of outreach to local businesses and properties along the route telling them about upcoming construction closures, etc. They were supposed to do mailings, door to door, media, etc. I'm surprised they haven't discussed this with Brookfield since it seemed they were actually trying to be proactive.

I'm in a meeting with Planning and LADOT about this next Tuesday afternoon to get a

[construction update.](#)

Hi Suzanne -

I read a recent article in Urbanize.LA that the MyFigueroa project is scheduled to kick off next month. We were involved in the initial discussions about the project, but it seemed to go dark until now. Do you have any details beyond what is mentioned in the article (see link below)? Considering the size and impact of the project, one would expect better communication by the City with the stakeholders that will be impact by this project. I would appreciate any insight you might have on the project.

Many thanks,

<http://urbanize.la/post/finally-construction-kicks-myfigueroa-october>
